linkedin.com/in/andre-baizhou-chen

Software engineer who likes turning messy real-world problems into simple, well-crafted products. Two or three lines about your focus and strengths go here.

EXPERIENCE

Software Engineer · Alan

20XX - Present

Paris, France

- Describe something you shipped and the difference it made, with a number if you have one.
- Describe a system you own or improved: what it does, its scale, what you changed.
- Describe how you work with others: mentoring, cross-team projects, reviews.

Software Engineer Intern · Previous company

20XX - 20XX

City, Country

- What you built there and why it mattered.
- Technologies you used, and one result worth mentioning.

PROJECTS

T-Rex Multiplayer · A multiplayer take on the offline dinosaur game, with players racing the same course in real time.

2019

andre-chen.com · This site. Astro, a canvas long-exposure hero you can paint on, a pixel-art runner and a command palette full of easter eggs.

2026

Restaurant Webpage · A responsive website for a restaurant, with a menu, gallery and reservation details.

2021

EDUCATION

Bachelor of Mathematics · University of Waterloo

2020

Waterloo, ON, Canada

SKILLS

Languages TypeScript · Python · SQL

Frameworks React · Node.js · Astro
